Assuming that this platform is the one indorsed in the election of Mr. CLEVELAND, the result must be regarded as an unparalleled personal victory and an expression of confidence in the wisdom of the policy he advocates as well as in his power to keep a guiding hand upon his party.

But the conviction will be widespread that the avowed principles of the party, not Mr. CLEVELAND'S modifications, have been voted up and the Republican economic and fiscal system voted down; that Free-trade is demanded by the American people, and that Mr. CLEVELAND, if he has actually differed with his party on this question, will be forced into line. He cannot stand out against a Congress which has been instructed, by the same vote that puts him in the White House, to repeal the McKinley law and impose duties only on non-competing products.

The meaning of the Chicago platform is unmistakable. There can be no warrant for any presumption that the Tariff resolution has been misunderstood by the voters of America. In plain terms it demands not only the abrogation of Line will run a boat out from Cincinnati the present Tariff law but the over- to-day. throw of the Protective policy. In the plethora of political news filling the columns of the press lately the fact that New Orleans has had an immense strike on its hands has almost passed unnoticed. Nearly all the trade Unions in the city have united in a general strike, trade is practically at a standstill, and even intercourse between different portions of the city has been rendered inconvenient and dangerous. The strikers seem not to have profited by the lessons conveyed by Homestead OFFICE Public Ledger Pullding, No. 10 East and Buffalo and are resorting to force and interference with the personal liberty of non-Union workers. They ought to know that this course is the shortest to disaster and defeat.

> THE Italian elections have resulted in a decided victory for the Government, which means for King HUMBERT and the Triple Alliance. The people have declared in effect that they are satisfied with Premier GIOLITT's promise of economy, and are in favor of his general policy.

Whatsoever the means by which the result may have been obtained, it is a result of far reaching influence in the affairs of Europe. It materially strengthens the combination against France and Russia and may be regarded for this reason as favorable to the prolongation of peace. The Italian people are evidently not yet prepared to abandon their allies of Germany and

The Pittsburgh Coal Strike.

PITTSBURGH, Pa., Nov. 12.-It is probable that the ten weeks' strike of the Monongahela river miners will be at an end by next Monday. Operators claim that advices from the third and second pools are to the effect that the miners were remaining out until after the election, and would then go to work. In affirmation of that statement a large number of communications were exhibited by prominent operators from their diggers, announcing their willingness to resume work at the three-cent

son, colored, one of Erie's brightest young public school teachers, shot herself fatally. Miss Dickson was the daughter of a well-to-do gunsmith. She was taken ill while attending her school duties by a violent attack of dyspepsia. After relating some horrid dreams about her father's revolver, she went up-stairs to fix up her father's room and, a few minutes later, three revolver shots announced the terrible deed. Friday was her twenty-first birthday.
